

INNOVATION SINCE 1947

Perfect surfaces and added value are our passion. Bringing colour, protection and function to surfaces is our mission. We dedicate all of our technical expertise to enhance our products, and support you with a personal level of service. Using innovative Technologies and highly efficient, reliable and user-friendly solutions, we are constantly setting new standards in surface technology.

Anyone purchasing a WAGNER paint sprayer automatically receives a three-year manufacturer's warranty. But we can do more: If you register online, you can extend this warranty for a further two years, free of charge!

SCOPE OF DELIVERY PC 1030

PLASTCOAT 1030 SPRAYPACK	2361588
Basic unit, PC1030	-
Mortar hose DN25, M/V25, 10 m, incl. air hose and control cable	2325197
Spraying lance, automatic, incl. 6 mm nozzle	2334115
Pump lubricant 500 ml	9992824

A PERFECT TEAM

PlastCoat 1030 combined with the compressor C 330/03 and the flow mixer PlastMix 15 are the perfect system for large-scale plaster spraying work.

Intrusion protection with bag opener

Maximum protection - Mixing process stops as soon as the mixing chamber is removed

Clear controls

Rapid transition from zero to 100: High torque even when filled thanks to the robust motor's direct transmission

Can be dismantled quickly and without tools - ideal for cleaning and maintenance

Always suitable - frame can be adjusted to three different heights

PLASTMIX 15

C 330/03

TECHNICAL DATA - PLASTMIX 15

Motor output	1.4 kW
Mixing rate	15 - 18 l/min
Hopper content	60 l
Weight	78 kg
Article number PlastMix 15 with steel-mixing tube	2348669
Article number PlastMix 15 with PUR-mixing tube	2359240

TECHNICAL DATA - COMPRESSOR C 330/03

Motor output	2.2 kW
Max. work pressure	10 bar
Suction capacity	330 l/min
Weight	32 kg
Article number	2337718

ACCESSORIES

MORTAR HOSES, INCL. AIR HOSE AND CONTROL CABLE

Product description	Art. No.
DN19, V/M 27, 2 m incl. swivel joint	2334131
DN19, V/M 27, 10 m	2325193
DN25, V/M 27, 10 m	2325197
DN35, V/M 35, 13.3 m	2325199

TEXTURE NOZZLES, STAINLESS STEEL

Size	4 mm	6 mm	8 mm	10 mm	12 mm	15 mm
Art. No.	268779	268780	268781	268782	342327	342328

TEXTURE NOZZLE SETS

Product description	Art. No.
Texture nozzle set, 4 pieces, 4 - 10 mm	268905
Texture nozzle set, 6 pieces, 4 - 15 mm	342216

IN-WALL NOZZLES

Size	10 mm	12 mm	14 mm	16 mm	18 mm
Art. No.	2362235	2362236	268746	268747	268748

ROTOR-STATOR KITS

Marking	D 6 - 2.5	D 6 - 3	D 7 - 2	D 8 - 1.5
Art. No., rotor	348312	348316	348926	2385520
Art. No., stator	348311	348315	348925	2385532
Colour, stator	black	yellow	brown	green
Flow rate, max.	7.5 l/min	10 l/min	15 l/min	20 l/min

Printed in Germany - Subject to modifications - EN - 2367 358 - 02/2022 M

PLASTCOAT 1030

Weight	58 kg
Motor output	2.2 kW
Voltage	230 V / 50 Hz
Operating pressure, max.	40 bar, 4 MPa
Delivery rate, max.	20 l/min
Feed height, max.	20 m
Delivery radius, max.	40 m
Grain size, max.	6 mm
Article number	2361588

THE PUMP IN DETAIL

Easy steering with just two controls - mode switch and speed controller

Compact dimensions - With a height of 62 cm the unit can be easily filled using buckets or combined with a flow mixer.

Big, pneumatic tires ensures mobility on all construction sites

Plastic materialhopper - for an easy cleaning with a capacity of up to 50 litre

Ergonomic spraying lance - Due to it's modular construction and accessories (e.g. the lance extension) the spraying lance can adapt quickly to any project

Automatic stator extraction - Fast separation of pump and suction system, also great for quick assembly. Ideal for easy cleaning and transport.

SPIRAL PUMP

Do you appreciate the machine-based application of material, especially for harder tasks? Then a spiral pump from WAGNER is exactly the strong power packet you need for your construction sites. The robust, powerful performance of a spiral pump is delivered by a really simple rotor-stator function that WAGNER has been successfully using on the market for decades.

1. EASY TO OPERATE:

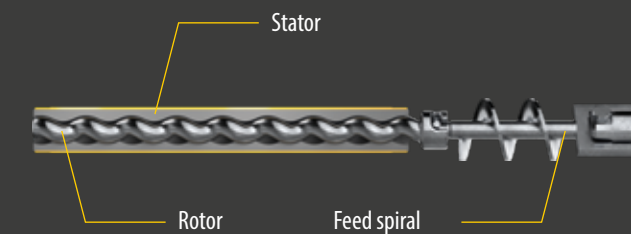

The simple, user-friendly operating concept for controlling the rotor and stator guarantees problem-free use, even for beginners.

2. FAST CLEANING:

PC 1030 can be quickly disassembled for cleaning and maintenance and reassembled again, including directly on the construction site. The material-carrying parts are also made from special materials which are easy to clean.

3. LONG SERVICE LIFE:

WAGNER spiral pumps are robust and easy to use. They are especially low-wear and low-maintenance, and are considerably quieter in operation than conventional piston pumps.

RECOMMENDED USE

MATERIALS:

Filler

Plaster

OBJECT SIZE:

Ideally suited for large, commercial objects.

APPLICATION EXAMPLES:

Plastering on the facade.

Plaster application in the interior.

SPRAYGUIDES

Here you will find answers on how to set up your unit to match the material you are using, and which paints and lacquers can be processed most effectively with your WAGNER unit.
